CD NOX 1

The Compact Disc Digital Audio System offers the best possible sound reproduction — on a small, convenient sound-carrier unit. The Compact Disc's superior performance is the result of laser-optical scanning combined with digital playback, and is independent of the technology used in making the original recording. This recording technology is identified on the back cover by a three-letter code

DDD = digital tape recorder used during session recording, mixing and/or editing, and mastering (transcription).

ADD = analogue tape recorder used during session recording, digital tape recorder used during subsequent mixing and/or editing and during mastering (transcription).

AAD = analogue tape recorder used during session recording and subsequent mixing and/or editing, digital tape recorder used during mastering (transcription).

In storing and handling the Compact Disc, you should apply the same care as with conventional records. No further cleaning will be necessary if the Compact Disc is always held by the edges and is replaced in its case directly after playing. Should the Compact Disc become soiled by fingerprints, dust or dirt, it can be wiped (always in a straight line, from centre to edge) with a clean and lint-free, soft, dry cloth. No solvent or abrasive cleaner should ever be used on the disc.
If you follow these suggestions, the Compact Disc will provide a lifetime of pure listening enjoyment.

Le système Compact Disc Digital Audio permet la meilleure reproduction sonore possible à partir d'un support de son de format réduit et pratique. Les remarquables performances du Compact Disc sont le résultat de la combinaison unique du système numérique et de la lecture laser-optique, indépendamment des différentes techniques appliquées lors de l'enregistrement. Ces techniques sont identifiées au verso de la couverture par un code à trois lettres:

DDD = utilisation d'un magnétophone numérique pendant les séances d'enregistrement, le mixage et/ou le montage et la gravure.

ADD = utilisation d'un magnétophone analogique pendant les séances d'enregistrement, utilisation d'un magnétophone numérique pendant le mixage et/ou le montage et la gravure.

AAD = utilisation d'un magnétophone analogique pendant les séances d'enregistrement et le mixage et/ou le montage, utilisation d'un magnétophone numérique pendant la gravure.

Pour obtenir les meilleurs résultats, il est indispensable d'apporter le même soin dans le rangement et la manipulation du Compact Disc qu'avec le disque microsillon. Il n'est pas nécessaire d'effectuer de nettoyage particulier si le disque est toujours tenu par les bords et est replacé directement dans son boîtier après l'écoute. Si le Compact Disc porte des traces d'empreintes digitales, de poussière ou autres, il peut être essuyé, toujours en ligne droite, du centre vers les bords, avec un chiffon propre, doux et sec qui ne s'effiloche pas. Tout produit nettoyant, solvant ou abrasif doit être proscrit. Si ces instructions sont respectées, le Compact Disc vous donnera une parfaite et durable restitution sonore.

Das Compact Disc Digital Audio System bietet die bestmögliche Klangwiedergabe – auf einem kleinen, handlichen Tonträger. Die überlegene Eigenschaft der Compact Disc beruht auf der Kombination von Laser-Abtastung und digitaler Wiedergabe. Die von der Compact Disc gebotene Qualität ist somit unabhängig von dem technischen Verfahren, das bei der Aufnahme eingesetzt wurde.
Auf der Rückseite der Verpackung kennzeichnet ein Code aus drei Buchstaben die Technik, die bei den drei Stationen Aufnahme, Schnitt/Abmischung und Überspielung zum Einsatz gekommen ist.

DDD = digitales Tonbandgerät bei der Aufnahme, bei Schnitt und/oder Abmischung, bei der Überspielung.

ADD = analoges Tonbandgerät bei der Aufnahme, digitales Tonbandgerät bei Schnitt und/oder Abmischung und bei der Überspielung.

AAD = analoges Tonbandgerät bei der Aufnahme und bei Schnitt und/oder Abmischung, digitales Tonbandgerät bei der Überspielung.

Die Compact Disc sollte mit der gleichen Sorgfalt gelagert und behandelt werden wie die konventionelle Langspielplatte. Eine Reinigung erübrigt sich, wenn die Compact Disc nur am Rande angefaßt und nach dem Abspielen sofort wieder in die Spezialverpackung zurückgelegt wird. Sollte die Compact Disc Spuren von Fingerabdrücken, Staub oder Schmutz aufweisen, ist sie mit einem sauberen, fusselfreien, weichen und trockenen Tuch (geradlinig von der Mitte zum Rand) zu reinigen. Bitte keine Lösungs- oder Scheuermittel verwenden!
Bei Beachtung dieser Hinweise wird die Compact Disc ihre Qualität dauerhaft bewahren.
